What is the Lyell Collection?

Launched in 2007 the Lyell Collection is an online collection comprising the Society's journal titles, Special Publications and key book series. Cutting edge science sits alongside important historical material, all captured and presented to the highest electronic standards and benefiting from the extensive functionality of HighWire Press' H2O platform.

With 240 000 peer-reviewed pages, 25 000 articles and 1000 volumes, the Lyell Collection is an invaluable tool for the researcher and student alike.

- Full text in HTML and PDF format
- Actively linking to cited references
- Free public access to alerts, search functions and abstracts
- Selected open access articles
- Hosted by Highwire Press

servicing science & profession

The Geological Society of London was founded in 1807 and is the UK national society for geosciences, with over 10 000 members. It is a global leader in Earth science publishing, dedicated to providing a high-quality service throughout the world.

New developments for 2012

The Society is collaborating with Elsevier to launch a Lyell Collection module on Geofacets. Selected titles will be available on Geofacets' searchable database of georeferenced geological maps that enables geoscientists working in the early stages of upstream exploration to assess a region's or basin's geological characteristics.

- Intuitive search features designed for geoscientists
- Map overlays
- Access to thousands of georeferenced maps
- Links to associated articles
- For further information please contact sales@geolsoc.org.uk

Special Publication archives

Online archives of the first 300 volumes of the Geological Society's Special Publications are now available for sale on a one-off, perpetual access basis. Prices include a 10% discount for those purchasing the full archive (volumes 1–300).

New titles

Two new archival titles will be launched and made available to Lyell Collection Complete subscribers at no additional charge.

- Transactions of the Edinburgh Geological Society
- Transactions of the Geological Society of Glasgow

Titles featured in the Lyell Collection

BOOKS

Special Publications

Special Publications are renowned for their high quality of science and production. Each volume focuses on a special theme and represents a balanced, state-of-the-art treatment of the subject matter.

Engineering Geology Special Publications

This successful series is devoted to the wide range of engineering geology and geotechnical topics; each volume provides balanced coverage of its subject.

Memoirs

Memoirs are definitive treatments of their subjects by acknowledged experts. They may be edited collections of papers, or can be written by a single group of authors.

Petroleum Geology Conferences series

The fully edited Proceedings of the 4th, 5th, 6th and 7th conferences in this prestigious conference series are hosted on the Lyell Collection.

JOURNALS

Journal of the Geological Society

JGS publishes high quality papers, summarising a full range of recent Earth Science research. JGS includes the Quarterly Journal of the Geological Society published 1845 to 1971.

Quarterly Journal of Engineering Geology and Hydrogeology

QJEGH is an established international journal featuring papers concerning geology as applied to civil engineering, mining practise and water resources.

Geochemistry: Exploration, Environment, Analysis

GEEA covers all aspects of geochemistry application including exploration and study of mineral resources, and the geochemistry of the environment.

Petroleum Geoscience

PG is a refereed journal providing a multidisciplinary outlet for those involved in the science and technology associated with rock-related petroleum disciplines

Scottish Journal of Geology

SJG publishes papers on all aspects of Scottish geology and its contiguous areas, including aspects of the Earth sciences that cannot be discussed solely in terms of Scottish geology.

Proceedings of the Yorkshire Geological Society

PYGS has been without break since 1839 and is a leading British geological journal, with a particular focus on the geology of northern England and its neighbouring areas.

Journal of Micropaleontology

JM is well-established as an international publication covering all aspects of microfossils and their application both in applied studies and basic research.

Transactions of the Geological Society

Published between 1811 and 1856, the Transactions captured the most significant geological communications of the period. Many papers have become classics and print copies are now extremely rare.

Transactions of the Edinburgh Geological Society

Published in 19 volumes between 1870 and 1963 the Transactions contain over 800 articles devoted to Scottish geology and cover all the key themes of the time.

Transactions of the Geological Society of Glasgow

Published between 1863 and 1965 the Transactions include papers by Croll, Geikie, Gregory, Holmes, Lapworth, McCallien, Thomson (later Lord Kelvin), Tyrrell, Richey and others whose seminal works provided important geological ideas.
