Review of Library Expenditure

A Working Group has been appointed by Council to review the Library's acquisitions policy. Visitors to the Library will be asked to fill in a questionnaire, regarding their use of journals and books to assist the Working Group prepare its report. We ask for your co-operation in this survey. If you have any questions about the Review, please contact Nic Bilham, Head of Strategy & External Relations. Tel: 020 7434 9944 or e-mail: nic.bilham@geolsoc.org.uk. For more information visit our website <http://www.geolsoc.org.uk/libraryreview> .

Missing book – can you help?

Our copy of Robert McQuillin's *An introduction to seismic interpretation* - 2nd ed. Graham & Trotman, 1984, is missing from the library shelves. This is a popular book and the Librarian would be very grateful for its return.

Prints of Geological Maps – more new titles available

More titles have been added to the list of facsimile maps available for purchase. Fellows price is £25 +postage & packing & VAT. They are produced to a high standard, the colours being a true to the original. The website carries a full list of titles currently available.

New titles include:

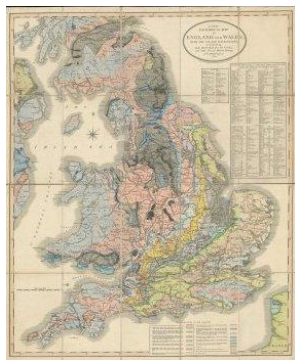

Geological sketch map of New Zealand constructed from official surveys and the explorations of Dr. F. van Hochstetter (1873)

1" to the mile map of Scotland Arran Special Sheet (1910)

If you would like to purchase one a map reprint, contact the Map Librarian. Tel: 020 7432 0998 or e-mail paul.Johnson@geolsoc.org.uk

Alternatively, if you would like a reproduction of a favourite map in the Society's collection that is not on the list, contact the Map Librarian with your suggestion to see if a print can be made for you.

Prints of the William Smith map now on sale

Prints of William Smith's 1815 geological map of England and Wales (courtesy of the Department of Geology, National Museum of Wales) are now available for purchase. You can buy each of the original 15 sheets separately or there is a patchworked version available at a smaller scale. Also available are prints of some of William Smith's **county maps** (including Surrey illustrated here) along with the 1820 and 1840 versions of Greenough's geological map of

England and Wales.

We hope to be adding more of William Smith's county maps later on this year, along with a variety of other prints of maps from the Geological Society's collections. Please visit the map sale page on our website for further details:

William Smith's Section – Snowdon to London

Sponsor-A-Manuscript

So far £800 has been donated towards the Library's appeal to preserve the book containing some of the Society's earliest manuscripts. The manuscript book contains valuable essays and correspondence from the Society's founding members. Preserving these fragile pages is an expensive project and another £1700 is needed.

If you would like to contribute towards preserving this important document please contact Michael McKimm in the Library. Donations, large and small, are crucial to help us reach our target. The Librarian would like to thank all those who have so far contributed to the Sponsor-a-Book appeal for their generosity.

Visit our website for further details of the scheme
