

The AusIMM New Leaders'

Conference 2014

Leadership and opportunities –
developing our future industry leaders

12–13 August 2014, Perth, Australia

The Conference

On behalf of the organising committee, it is our pleasure to invite you to participate in The AusIMM New Leaders' Conference 2014.

The theme of this year's conference reflects an industry need for work-ready graduates, while providing a professional development opportunity for new professionals.

The conference will provide much needed skills and knowledge for graduates and will help those attending to become future industry leaders.

Conference attendees will hear from presenters imparting the necessary professional and technical skills required by new leaders and enable them to map out and progress their career in the minerals industry.

The two-day conference will include networking events, conference tours and workshops.

The organising committee invites all AusIMM members, together with friends and colleagues across all disciplines of the mining industry, to register and participate in this exciting event.

Bradley Franklin SAusIMM

Conference Chair, The AusIMM New Leaders' Conference 2014

Workshops and Tours

The organising committee invites proposals for the workshop and technical tour program to be held before and after the conference. These opportunities provide participants further engagement with the industry and members from all segments of the mining community are invited to submit proposals for review. For all enquiries or to submit a proposal please contact Event Management.

Sponsorship and Display Opportunities

Showcase your business at the conference and register your interest in sponsorship today. The sponsorship and display package contains a variety of levels, and should you wish to discuss opportunities, develop a package to suit your budget, or have any questions please contact Event Management.

Event Management: The AusIMM
