

## Further Reading List for London Lecture: 'LUSI: the Geology and Engineering of a Mud Volcano disaster'

David Shilston, Atkins

Wednesday 22 January

The reading list can also be found at <http://www.geolsoc.org.uk/mudvolcano>

### Journal Articles

1. Dimitrov, L. I., Mud volcanoes – a significant source of atmospheric methane. *Geo-Marine Letters*, 23, 155-161. (2003) DOI: **10.1007/s00367-003-0140-3**
2. Davies, R. J., Mathias, S. A., Swarbrick, R. E., et al. Probabilistic longevity estimate for the LUSI mud volcano, East Java. *Journal of the Geological Society*, 168, 517-523. (2011) DOI: **10.1144/0016-76492010-129**
3. Mazzini, A., Svensen, H., Akhmanov, G. G., et al. Triggering and dynamic evolution of LUSI mud volcano, Indonesia. *Earth and Planetary Science Letters*, 261, 375-388. (2007) DOI: **10.1016/j.epsl.2007.07.001**
4. Williams, V. S., and Wibowo, H. T. LUSI mitigation implications of BPLS and other subsidence measurements. *Journal of SE Asian Applied Geology* 2 (3), 267-274. (2010)
