Join our **Introduction to Micromine Course** in 2015

Micromine
Micromine

Gain practical experience and boost your employability by joining a technical training workshop for our flagship 3D geological modelling solution, Micromine.

- **Introduction to Micromine** will teach you how to use the basics of the Micromine software package and get the most out of your exploration data.

- Our two-day course, specially designed for students and geologists who are presently unemployed, is formally accredited by The Geological Society.

- The courses are led by experienced practitioners and delivered on a quarterly basis in London at a **heavily reduced rate of £110 (including VAT)**.

DATES FOR 2015
January 13-14, 2015 • April 14-15, 2015 • July 14-15, 2015 • October 13-14, 2015

This is an excellent opportunity to broaden your skills and knowledge of industry leading technology. Spaces are limited.

What you will learn

How to master the basics of your Micromine software, by working through the key features:

- Import and assess data from a newly acquired exploration project in order to make recommendations on future drilling.
- Visual integration of different 2D and 3D data using the Vizex (Visual Explorer) interface.
- Generate drillhole sections and produce printed output.

How to get the most out of your exploration data:

- Gain a greater understanding of Micromine to perform tasks beyond just displaying data.
- Use tools in Micromine specifically suited for exploration work.

Please contact MICROMINE UK at **mmuk@micromine.com** to apply, or visit **www.micromine.com** for further information and to download an application form.

Don't miss this fantastic opportunity!
