

***The Geological Society of London:  
East Anglian Regional Group***

***Evening Lecture***

***Forensic Geology: The Applications of Geology to the Police and Law  
Enforcement***

*With*

***Dr Laurance Donnelly***

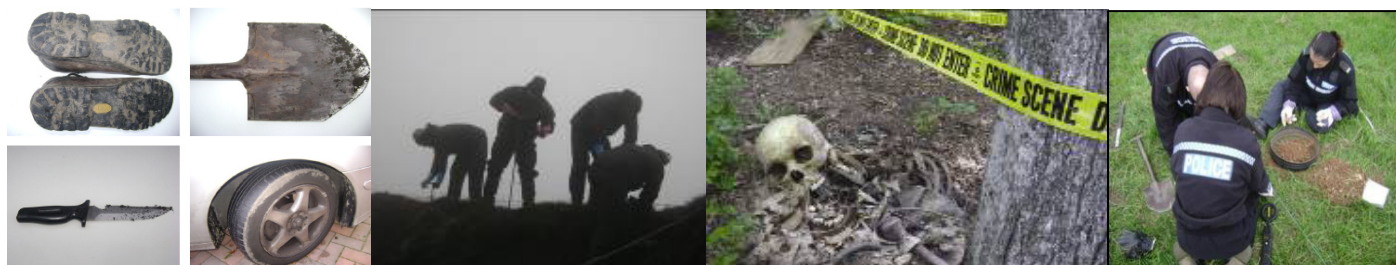

*BSc (Hons), PhD, CGeol, CSci, EurGeol, FGS, FGSA*

*(Forensic Geologist & Police Search Adviser. Chair, IUGS Initiative on Forensic Geology)*

This talk provides a general overview of the history and recent developments in forensic geology and how geologists' have supported the Police with certain types of crimes including; rapes, murders, robbery, terrorism, fakes, fraud, theft and ground searches for graves, weapon, money and drugs. It draws on some operational experiences and provides information on the logistical aspects of working as a geologist with the police.
