Sevenoaks Weald (OS NGR TQ 528 513)

Post Code for Sat Navs TN14 6LT; Parking TBA on Registration

Classic rotational landsliding in the London Clay Formation
cliffs at Warden Point, Isle of Sheppey

- ◆ Leader: Dr David Giles, University of Portsmouth
- ◆ Itinerary AM: To examine the classic relict periglacial landslides surrounding the A21 Sevenoaks Bypass
- ◆ Itinerary PM: To examine the classic London Clay coastal landslides at Warden Point, Isle of Sheppey
- ◆ The walk is expected to finish at about 4pm on Sheppey
- ◆ Please bring a packed lunch. Also sturdy footwear as we will be walking across loose shingle, mud and slippery rocks. NOTE that we will need to start promptly to complete the full day's itinerary.

PLACES ARE LIMITED SO IF YOU WISH TO ATTEND, PLEASE LET US KNOW BY RESPONDING TO:
j.ellis133@btinternet.com
