Geological  
Society**

*servicing science & profession*

South East Regional Group

Meeting

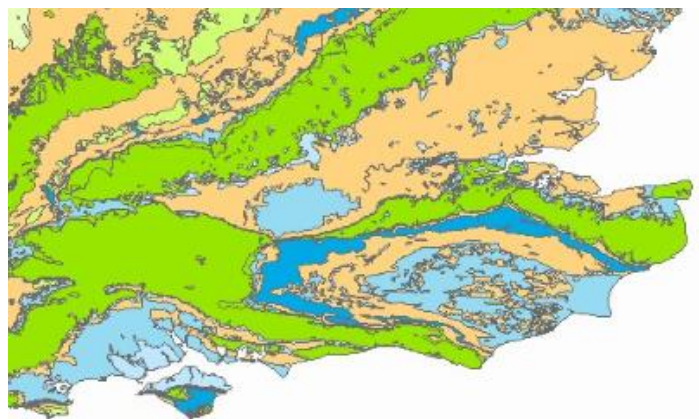

**Date: 17<sup>th</sup> April 2024**

**Time: 7:00pm**

**Location: Forest School, Comptons Lane, Horsham RH13 5NW**

## **Sustainable Groundwater Management in South East England**

Southeast England is a water stressed region heavily reliant on groundwater for public water supply. This talk will explore the geological makeup of the major aquifers in the region, current groundwater resources and the potential challenges to sustainable groundwater management posed by factors like population growth and climate change. The presentation will also explore the critical role groundwater plays in supporting the unique chalk stream habitats of the area.

### **Speaker**

Simon Cook is a hydrogeologist with nearly 20 years of experience working in on a range of groundwater related issues including water resource management, groundwater contamination and water quality and the environmental impacts of abstraction.

### **Joint Meeting with Horsham Geological Field Club**

**HORSHAM  
GEOLOGICAL FIELD CLUB**

Please let me know if you plan to attend as we are limited by the room size [southeastrg@googlemail.com](mailto:southeastrg@googlemail.com)

There is a large carpark at the school. Drive in by the main gates. The main reception is straight ahead, enter via a door in the corridor to the right of the main reception door. HGFC signs will direct you up to Room Maths 1 which is on the first floor.
