

CAPACITY BUILDING FOR THE FORMATION OF A GEO-ECOTOXICOLOGICAL RESEARCH GROUP

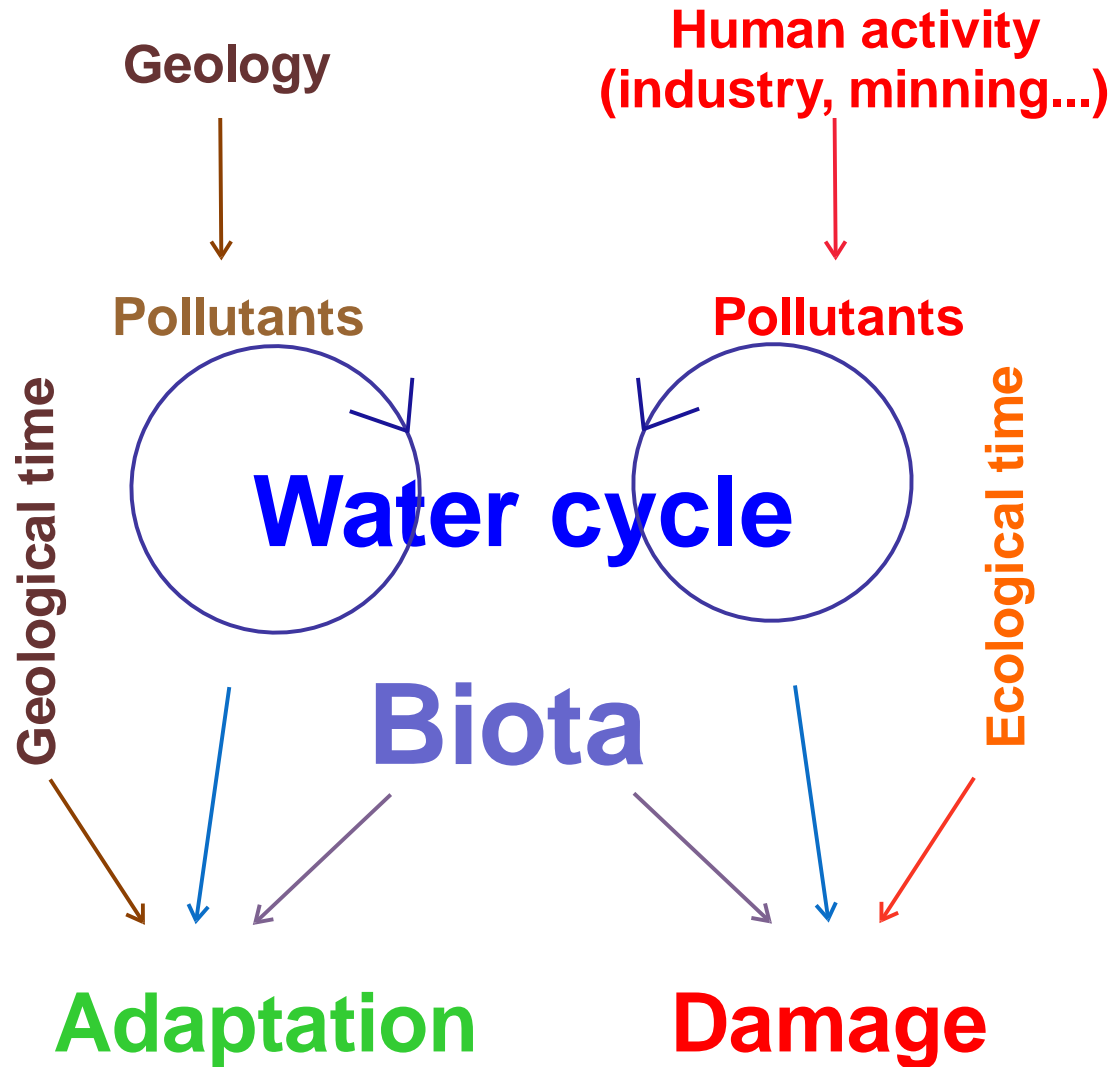

Sila Pla-Pueyo¹, Bernardo Tavares Freitas², Theodore Henry¹ and Gisela de Aragão Umbuzeiro²

¹ School of Energy, Geoscience, Infrastructure and Society, Heriot-Watt University, UK (sila.pla@gmail.com; t.henry@hw.ac.uk)

² School of Technology, University of Campinas (UNICAMP), Brazil (giselau@ft.unicamp.br ; bernardotf@gmail.com)

Identified issues

Proposal and aims for the future

Interdisciplinary group {
- Advisors (professionals)
- Students (graduates and postgraduates)

Geology + Ecotoxicology

Aims:

- Increase awareness
- Enhance understanding accross disciplines
- Build improved approaches for solving environmental issues

Joint courses (Brazil+Scotland)

Assessment of field sites

Integrated research projects
