Earth Science in Action

8-16 October 2016

Earth Science Week 2016 Competition

To celebrate Earth Science Week 2016 (8th -16th October), the PESGB and ESTA are running a national competition for UK schools linked to the event's theme: "Earth science in action".

The challenge is for students to produce a 3-minute video (maximum length) in which they show geological fieldwork in action and demonstrate how the fieldwork has helped them to understand the geology of the place they have visited.

Please don't forget:

-  to mention a place name and grid reference (or an address and postcode) for the place where you carried out your geological fieldwork
-  all images and words must be your own (i.e. work you have done yourself).

Entries will be featured on the ESTA and PESGB websites and newsletters. Each entrant will receive a signed certificate.

Prizes of GoPro cameras (for the competition winner and the winner's school) will be awarded for the best entry judged on originality, impact and the level and quality of information provided.

The competition is open to individual students in the age categories 14-16 and 16-18. (Students must enter the category they will be in on 1st October 2016)

All entries must be accompanied by a completed entry form and a video release form signed by a parent or guardian (see separate documents).

VIDEO RELEASE FORM - Parent/Guardian Permission

Dear parent/guardian,

Earth Science Week Activity, 2016

We are very grateful to you for letting your son or daughter be involved with the PESGB-ESTA Earth Science Week, 2016 Competition.

The video produced will be used by PESGB and ESTA in connection with publicity of Earth Science Week, 2016. We will not publish any address of any young people in captions associated with the videos. It would be very helpful if you can confirm that you are content with the video to be used in publicity material by signing the release form below. Many thanks for your assistance.
