Fieldtrip led by:

FIELDTRIP: Zechstein carbonates of the north-east of England

9-10 May 2022, led by Cambridge Carbonates Ltd

WHERE TO STAY

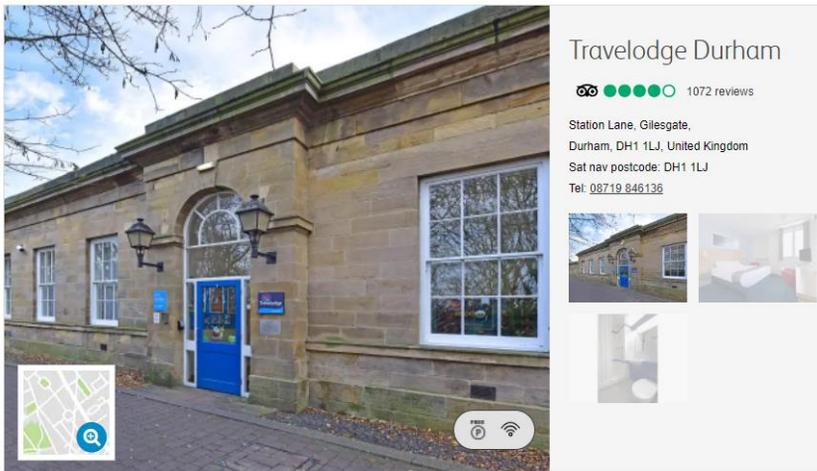

The fieldtrip will start from Durham at 08:30am on Monday morning, and end in Durham in the early afternoon on Tuesday. There are frequent direct trains from London to Durham, and the trip will end in good time on the Tuesday so that delegates can travel to London for the main conference on the Wednesday.

Transportation to Durham is not included in the cost, and delegates are asked to make their own way there.

We suggest staying at the Durham Travelodge, and this will be the main meeting point on Monday morning:

<https://www.travelodge.co.uk/hotels/204/Durham-hotel>

Delegates are asked to make their own hotel booking.

On the evening of the 9th, we can go as a group for dinner, or explore Durham as you wish!

Lunch on the 9th will be at a café/ restaurant in the field area.

WHAT TO BRING

This field trip will involve outdoor activity in any weather conditions, so you are advised to wear sturdy footwear and comfortable clothing. British springtime weather can be highly variable, so please also bring a waterproof and warm layers in addition to sunscreen.
