

## *Geological disposal of radioactive waste in the UK'*

**CAPTION:** Conceptual layout of surface and subsurface facilities for a geological disposal facility. Note the separation of high- and low-heat-generating wastes (HHGW, LHGW).

Jonathan P Turner - Radioactive Waste Management - 8/5/18

Notes are unavailable for this meeting. However, a more detailed seminar on this topic, including a presentation by Jonathan Turner are available as a set of videos on the Geological Society Website (and on You Tube). See link below.
