

**GRSG 28TH INTERNATIONAL
ANNUAL CONFERENCE**

APPLIED GEOLOGICAL REMOTE SENSING

**13TH – 15TH DECEMBER 2017
JUPITER HOTEL, LISBON, PORTUGAL**

The Geological Remote Sensing Group (GRSG) is pleased to announce the dates of its 28th Annual Conference which will focus on a wide range of remote sensing applications, tools, latest developments and sensors across the following themes:

- Mineral Exploration and Mining
- Oil & Gas
- Innovative Technology
- Planetary science
- Geohazards
- Geological & Geomorphology Applications
- Civil Engineering & Engineering Geology
- Bathymetry and Elevation models
- Classification, multi-temporal analysis and modelling
- New sensors
- Hyperspectral & Multispectral
- Radar / InSAR

Abstracts (Oral Presentations and Posters):
Title, Author(s), Affiliation and 300 word abstract should be sent to agm@grsg.org.uk

The Geological Remote Sensing Group (GRSG) is a special interest group of The Geological Society (GeoSoc) and the Remote Sensing and Photogrammetry Society (RSPSoc) formed in 1989.

For more information please contact the committee (agm@grsg.org.uk) or visit our website: www.grsg.org.uk

Important information:
Call for papers opens: 1st April 2017
Registration opens: 31st May 2017
Call for papers closes: 1st September 2017
