Keep up to date via the Library Newsletter

Welcome to Issue 16 of the Geological Society Library's bi-monthly newsletter.

In this issue we have news of books, maps and e-books, a Russian map exhibition and the Library's book sale.

In this issue:

- New collection of Turkish geological maps
- New title - Petroleum Geology of Libya
- 4 new e-books - Geotechnical Engineering and Regional Geology
- 1956 tectonic map of the USSR - a new exhibition
- Summer Book Sale
- Library guest speaker wins biography award

We hope you find this newsletter informative and useful. Do get in touch and let us know what you think.

Best wishes,
The Library Team

New collection of Turkish geological maps

The Library has obtained the entire published set of geological maps of Turkey at 1:1,600,000 scale, thanks to the kind donation of Professor A. M. Celbi Şengör.

This is in excess of 300 sheets published since 1993, covering the majority of the country, and all with explanatory texts. Professor Şengör’s donation also included other thematic sets for Turkey at 1:250,000 and 1:1,000,000 scales.
