New collection of Turkish geological maps

The Library has obtained the entire published set of geological maps of Turkey at 1:1,000,000 scale, thanks to the kind donation of Professor A. M. Celâl Şengör.

This is in excess of 300 sheets published since 1997, covering the majority of the country, and all with explanatory texts. Professor Şengör's donation also included other thematic sets for Turkey at 1:250,000 and 1:1,000,000 scales.
