

Welcome to the first issue of our newsletter for student members of the Geological Society.

In this issue:

- [Hazel Prichard Student Bursary](#)
- [Careers Day at Imperial College](#)
- [Explore your Library](#)
- [Discover the Lyell Collection](#)
- [Become a Geology STEM Ambassador](#)
- [Geoscientist magazine cover competition!](#)
- [Join us for the Early Career Geologist Award finals](#)

### Hazel Prichard Student Bursary

The Geological Society and Mineralogical Society of Great Britain & Ireland are pleased to announce the [Hazel Prichard Student Bursary](#). The bursary, funded by her family, honours the achievements of Professor Hazel Prichard (1954-2017) in the mineral sciences.

The bursary provides up to £3000 and is available to support an undergraduate or taught MSc student in undertaking a research project that may or may not form part of their degree course.

### Careers Day at Imperial College

The Geological Society Career and Industry Day is an essential meeting place for geoscience students and the geoscience industry.

The next careers day will be held at Imperial College London on 20 March 2019 and will include:

- Career and industry presentations covering different areas of geology and academia
- Exhibition consisting of industry and professional bodies, and higher education institutions promoting MSc and PhD programmes
- CV and careers workshop running alongside the talks

REGISTER ONLINE

The event is free to attend. [Register online](#)

Future Careers Days: Nottingham (6 November), Edinburgh (4 December TBC).

## Explore your Library

As a GSL student member you are able to access for free the Geological Society Library, both onsite in central London and remotely using our wide range of [electronic resources](#).

In the Library you'll find quiet study space, perfect for research or revising for exams, and a broader range of books, maps and journals than in your campus library.

If you are unable to visit in person all of [our services](#) are available remotely, and our friendly, experienced staff are on hand to assist with any enquiries by phone or email.

The Library is open 9.30 - 5.30, Monday to Friday, and is found upstairs in Burlington House, Piccadilly (Green Park or Piccadilly Circus tube).

## Discover the Lyell Collection

Don't forget as a benefit of your membership you can access some journal and book content in the Lyell Collection!

The Lyell Collection is a unique resource to accompany any aspiring geologist in their studies. Bringing together nearly a quarter of a million pages of peer-reviewed Earth science content on a single searchable site, it is an invaluable resource for you at any point in your career.

You can access the Lyell Collection by clicking [here](#) and search for keywords using the 'search publications' button at the bottom of the page, making finding specific research even easier!

For more information and full details of what you can access as part of your membership visit our [website](#)

## Become a Geology STEM Ambassador

Geology STEM Ambassadors are positive role models available to give geoscience talks, workshops, careers information and other support to interested schools. Geoscience outreach is a great thing to get involved with whilst you're studying. Becoming a Geology STEM Ambassador will help you to improve your own subject knowledge, develop your communication and presentation skills, allow you to gain valuable work experience and impart a passion for geoscience and the planet to younger generations.

The Geology STEM Ambassadors scheme is run by STEM Learning in partnership with the Geological Society and includes a free training session and a DBS check provided by STEM Learning.

## Geoscientist magazine cover competition!

2019 will be the 100<sup>th</sup> anniversary of the first female Fellows of the Geological Society and to mark the centenary we're opening up the cover of our membership magazine, [Geoscientist](#), to your design ideas!

In May we will celebrate the centenary with a special issue, and we'd love the cover to feature an image celebrating women in geology, whether past or present, designed by you. It's up to you how you interpret the theme - send us a drawing of your favourite female geologist, a photo of yourself or your colleagues in the lab or in the field, an artwork which you feel represents the importance of diversity in the geosciences - anything you like!

Entry is free and open to all, with a deadline of **Sunday 17<sup>th</sup> March**.

## Join us for the Early Career Geologist Award finals

The [Early Career Geologist Award](#) is a competition where geoscientists within ten years of graduating give presentations on projects they have been involved with.

This year's award finals will be taking place at the Geological Society on 22 February 2019. If you are interested in attending the award finals, please [contact us](#).
